April 26, 2024

Key Metrics

- **Earnings Scorecard:** For Q1 2024 (with 46% of S&P 500 companies reporting actual results), 77% of S&P 500 companies have reported a positive EPS surprise and 60% of S&P 500 companies have reported a positive revenue surprise.
- **Earnings Growth:** For Q1 2024, the blended (year-over-year) earnings growth rate for the S&P 500 is 3.5%. If 3.5% is the actual growth rate for the quarter, it will mark the third-straight quarter of year-over-year earnings growth for the index.
- **Earnings Revisions:** On March 31, the estimated (year-over-year) earnings growth rate for the S&P 500 for Q1 2024 was 3.4%. Eight sectors are reporting higher earnings today (compared to March 31) due to positive EPS surprises.
- **Earnings Guidance:** For Q2 2024, 19 S&P 500 companies have issued negative EPS guidance and 20 S&P 500 companies have issued positive EPS guidance.
- **Valuation:** The forward 12-month P/E ratio for the S&P 500 is 20.0. This P/E ratio is above the 5-year average (19.1) and above the 10-year average (17.8).

S&P 500 Reporting Higher Net Profit Margin Quarter-Over-Quarter for Q1

Given continuing concerns in the market about inflation, what is the S&P 500 reporting for a net profit margin for Q1?

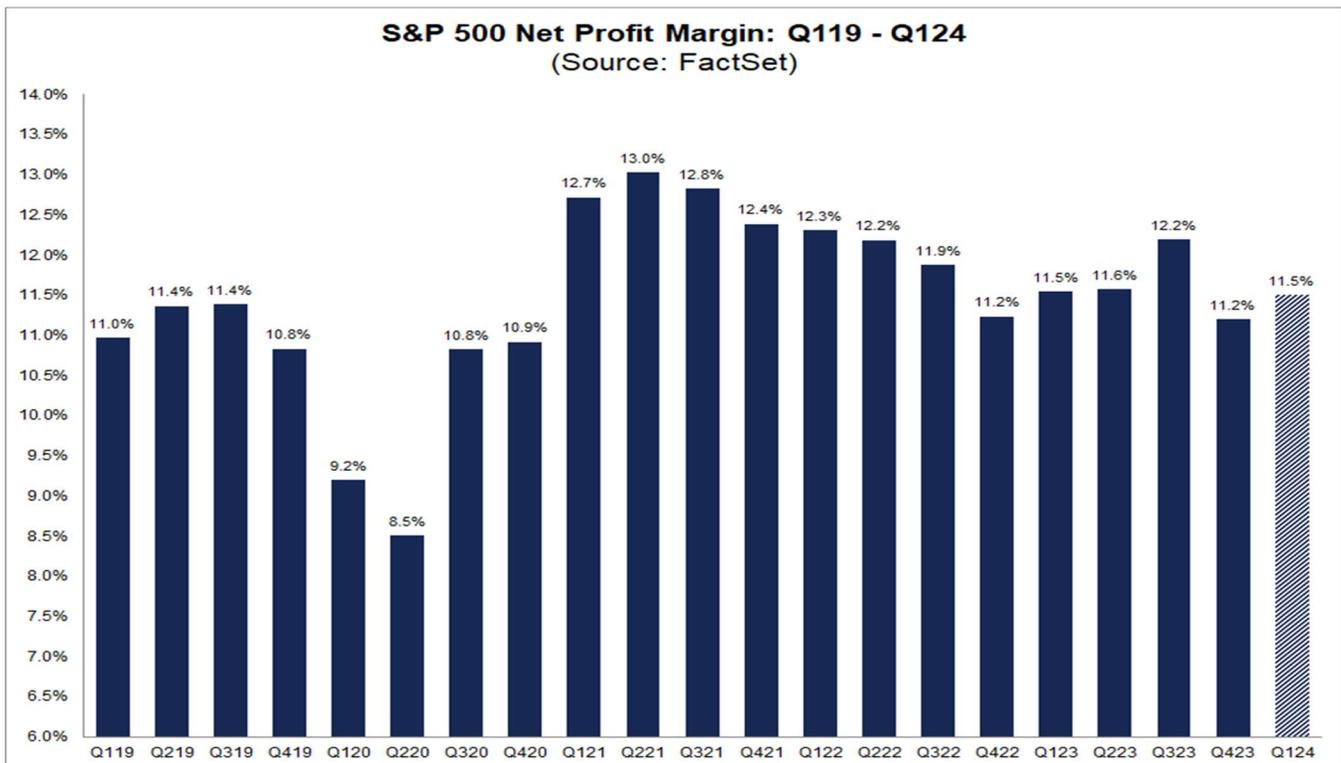

The (blended) net profit margin for the S&P 500 for Q1 2024 is 11.5%, which is in line with the year-ago net profit margin and the 5-year average, but above the previous quarter's net profit margin.

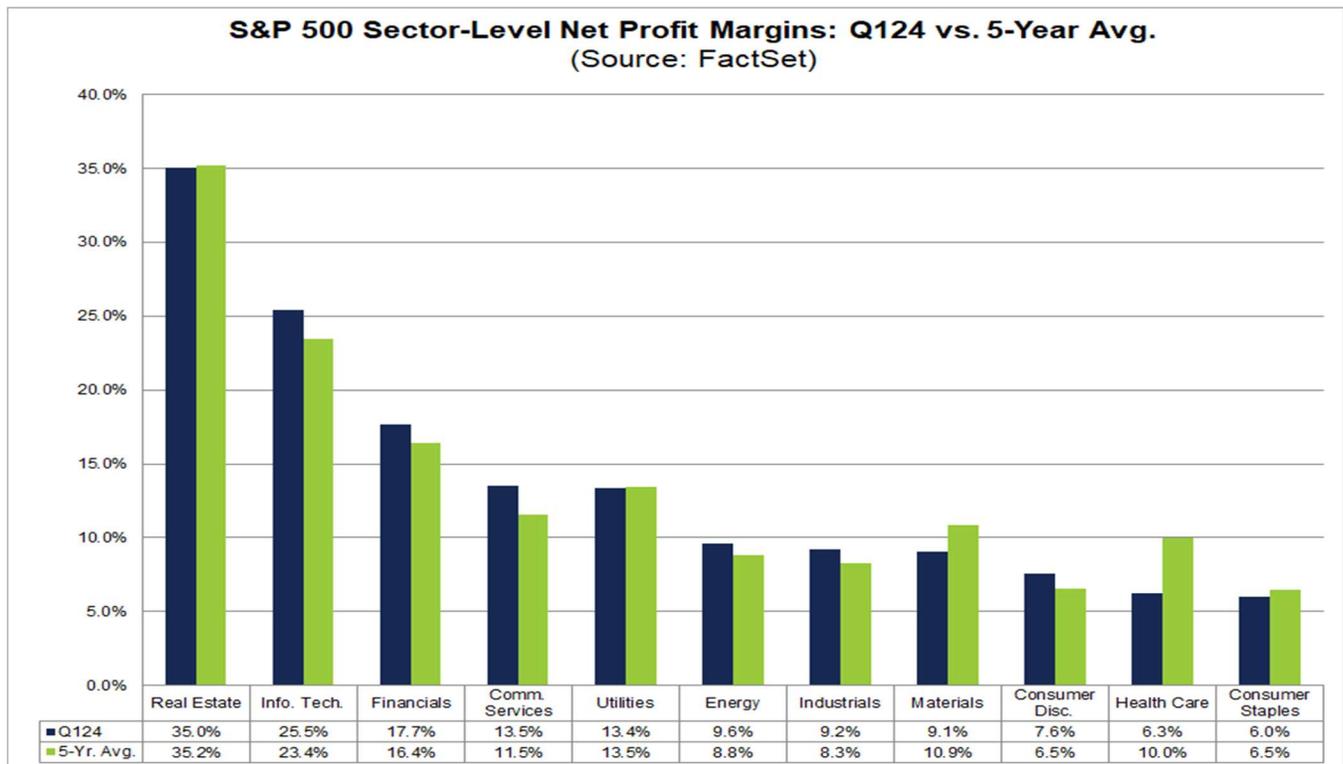

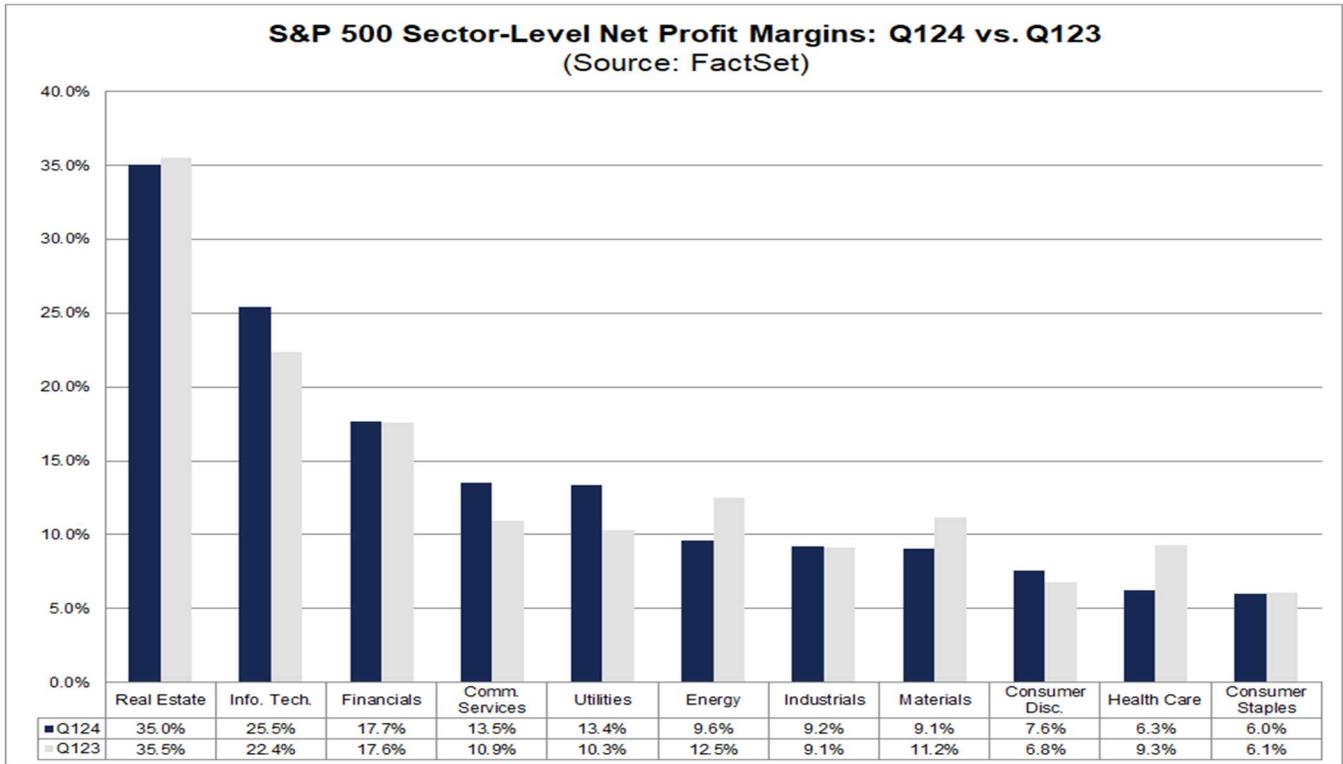

At the sector level, six sectors are reporting a year-over-year increase in their net profit margins in Q1 2024 compared to Q1 2023, led by the Information Technology (25.5% vs. 22.4%), Utilities (13.4% vs. 10.3%), and Communication Services (13.5% vs. 10.9%) sectors. On the other hand, five sectors are reporting a year-over-year decrease in their net profit margins in Q1 2024 compared to Q1 2023, led by the Health Care (6.3% vs. 9.3%) and Energy (9.6% vs. 12.5%) sectors.

Six sectors are reporting net profit margins in Q1 2024 that are above their 5-year averages, led by the Information Technology (25.5% vs. 23.4%) and Communication Services (13.5% vs. 11.5%) sectors. On the other hand, five sectors are reporting net profit margins in Q1 2024 that are below their 5-year averages, led by the Health Care (6.3% vs. 10.0%) and Materials (9.1% vs. 10.9%) sectors.

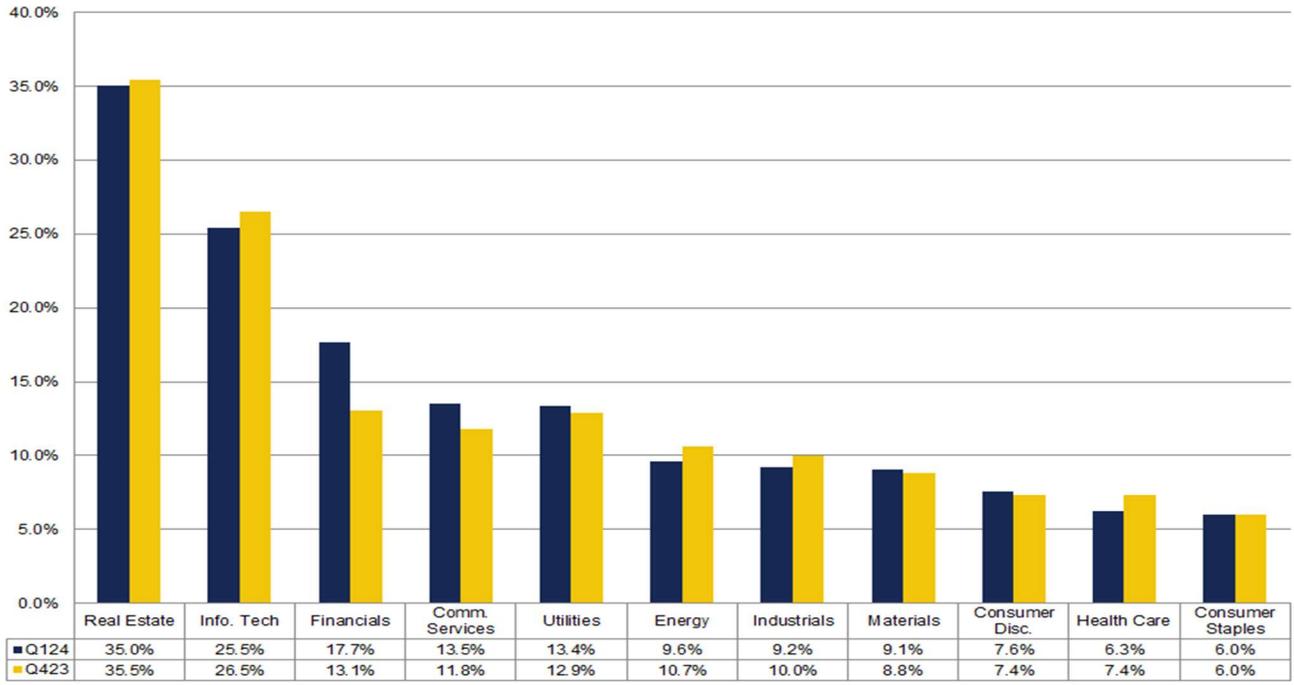

Five sectors are reporting a quarter-over-quarter increase in their net profit margins in Q1 2024 compared to Q4 2023, led by the Financials (17.7% vs. 13.1%) sector. On the other hand, six sectors are reporting a quarter-over-quarter decrease net profit margins in Q1 2024 compared to Q4 2023, led by Health Care (6.3% vs. 7.4%), Energy (9.6% vs. 10.7%), and Information Technology (25.5% vs. 26.5%) sectors.

It is interesting to note that analysts believe net profit margins for the S&P 500 will be above 12.0% for the rest of 2024. As of today, the estimated net profit margins for Q2 2024, Q3 2024, and Q4 2024 are 12.2%, 12.6%, and 12.5%, respectively.

S&P 500 Sector-Level Net Profit Margins: Q124 vs. Q423
(Source: FactSet)

Q1 Earnings Season: By The Numbers

Overview

At the mid-point of the Q1 earnings season, S&P 500 companies continue to perform well compared to expectations. Both the percentage of S&P 500 companies reporting positive earnings surprises and the magnitude of earnings surprises are above their 10-year averages. As a result, the index is reporting higher earnings for the first quarter today relative to the end of last week and relative to the end of the quarter. On a year-over-year basis, the S&P 500 is reporting earnings growth for the third-straight quarter.

Overall, 46% of the companies in the S&P 500 have reported actual results for Q1 2024 to date. Of these companies, 77% have reported actual EPS above estimates, which is equal to the 5-year average of 77% but above the 10-year average of 74%. In aggregate, companies are reporting earnings that are 8.4% above estimates, which is below the 5-year average of 8.5% but above the 10-year average of 6.7%. Historical averages reflect actual results from all 500 companies, not the actual results from the percentage of companies that have reported through this point in time.

During the past week, positive earnings surprises reported by companies in multiple sectors (led by the Communication Services sector) were the largest contributors to the increase in the overall growth rate for the index over this period. Since March 31, positive earnings surprises reported by companies in the Communication Services, Financials, Industrials, and Information Technology sectors, offset by downward revisions to EPS estimates for two companies in the Health Care sector, have been the largest contributors to the slight increase in the earnings growth rate for the index during this period.

As a result, the index is reporting higher earnings for the first quarter today relative to the end of last week and relative to the end of the quarter. The blended (combines actual results for companies that have reported and estimated results for companies that have yet to report) earnings growth rate for the first quarter is 3.5% today, compared to an earnings growth rate of 0.6% last week and an earnings growth rate of 3.4% at the end of the first quarter (March 31).

If 3.5% is the actual growth rate for the quarter, it will mark the third consecutive quarter of year-over-year earnings growth for the index.

Eight of the eleven sectors are reporting year-over-year earnings growth, led by the Communication Services, Utilities, Information Technology, and Consumer Discretionary sectors. On the other hand, three sectors are reporting a year-over-year decline in earnings: Health Care, Energy, and Materials.

In terms of revenues, 60% of S&P 500 companies have reported actual revenues above estimates, which is below the 5-year average of 69% and below the 10-year average of 64%. In aggregate, companies are reporting revenues that are 1.3% above the estimates, which is also below the 5-year average of 2.0% and below the 10-year average of 1.4%. Again, historical averages reflect actual results from all 500 companies, not the actual results from the percentage of companies that have reported through this point in time.

During the past week, positive revenue surprises reported by companies in multiple sectors (led by the Health Care and Energy sectors) were the largest contributors to the increase in the overall growth rate for the index over this period. Since March 31, positive revenue surprises reported by companies in the Health Care and Financials sectors have been the largest contributors to the increase in the revenue growth rate for the index during this period.

As a result, the index is reporting higher revenues for the first quarter today relative to the end of last week and relative to the end of the quarter. The blended revenue growth rate for the first quarter is 4.0% today, compared to a revenue growth rate of 3.5% last week and a revenue growth rate of 3.5% at the end of the first quarter (March 31).

If 4.0% is the actual revenue growth rate for the quarter, it will mark the 14th consecutive quarter of revenue growth for the index.

Eight sectors are reporting year-over-year growth in revenues, led by the Communication Services and Information Technology sectors. On the other hand, three sectors are reporting a year-over-year decline in revenues, led by the Utilities and Materials sectors.

Looking ahead, analysts expect (year-over-year) earnings growth rates of 9.7%, 8.6%, and 17.3% for Q2 2024, Q3 2024, and Q4 2024, respectively. For CY 2024, analysts are calling for (year-over-year) earnings growth of 10.8%.

The forward 12-month P/E ratio is 20.0, which is above the 5-year average (19.1) and above the 10-year average (17.8). However, it is below the forward P/E ratio of 21.0 recorded at the end of the first quarter (March 31).

During the upcoming week, 175 S&P 500 companies (including 6 Dow 30 components) are scheduled to report results for the first quarter.

Scorecard: Number & Magnitude of Positive EPS Surprises Are Above 10-Year Averages

Percentage of Companies Beating EPS Estimates (77%) is Below 5-Year Average

Overall, 46% of the companies in the S&P 500 have reported earnings to date for the first quarter. Of these companies, 77% have reported actual EPS above the mean EPS estimate, 6% have reported actual EPS equal to the mean EPS estimate, and 17% have reported actual EPS below the mean EPS estimate. The percentage of companies reporting EPS above the mean EPS estimate is below the 1-year average (78%), equal to the 5-year average (77%), and above the 10-year average (74%). Historical averages reflect actual results from all 500 companies, not the actual results from the percentage of companies that have reported through this point in time.

At the sector level, the Health Care (100%) and Communication Services (91%) sectors have the highest percentages of companies reporting earnings above estimates, while the Energy (60%) and Real Estate (63%) sectors have the lowest percentages of companies reporting earnings above estimates.

Earnings Surprise Percentage (+8.4%) is Below 5-Year Average

In aggregate, companies are reporting earnings that are 8.4% above expectations. This surprise percentage is above the 1-year average (+6.4%), below the 5-year average (+8.5%), and above the 10-year average (+6.7%). Historical averages reflect actual results from all 500 companies, not the actual results from the percentage of companies that have reported through this point in time.

The Consumer Discretionary (+15.2%) sector is reporting the largest positive (aggregate) difference between actual earnings and estimated earnings. Within this sector, Hasbro (\$0.61 vs. \$0.27), Royal Caribbean Group (\$1.77 vs. \$1.33), PulteGroup (\$3.10 vs. \$2.36), NIKE (\$0.98 vs. \$0.75), General Motors (\$2.62 vs. \$2.13), Las Vegas Sands (\$0.75 vs. \$0.62), and Carnival (-\$0.14 vs. -\$0.18) have reported the largest positive EPS surprises.

The Communication Services (+13.6%) sector is reporting the second-largest positive (aggregate) difference between actual earnings and estimated earnings. Within this sector, Alphabet (\$1.89 vs. \$1.51), Netflix (\$5.28 vs. \$4.52), and Meta Platforms (\$4.71 vs. \$3.22) have reported the largest positive EPS surprises.

The Industrials (+10.3%) sector is reporting the third-largest positive (aggregate) difference between actual earnings and estimated earnings. Within this sector, United Airlines Holdings (-\$0.15 vs. -\$0.54), Boeing (-\$1.13 vs. -\$1.63), Westinghouse Air Brake Technologies (\$1.89 vs. \$1.49), GE Aerospace (\$0.82 vs. \$0.65), Carrier Global (\$0.62 vs. \$0.50), and Delta Air Lines (\$0.45 vs. \$0.37) have reported the largest positive EPS surprises.

The Materials (+9.5%) sector is reporting the fourth-largest positive (aggregate) difference between actual earnings and estimated earnings. Within this sector, Newmont (\$0.55 vs. \$0.36), Dow (\$0.56 vs. \$0.45), Ball Corporation (\$0.68 vs. \$0.55), and Freeport McMoRan (\$0.32 vs. \$0.26) have reported the largest positive EPS surprises.

Market Punishing Negative EPS Surprises Slightly More Than Average

To date, the market is rewarding positive earnings surprises reported by S&P 500 companies at average levels while punishing negative earnings surprises reported by S&P 500 companies slightly more than average.

Companies that have reported positive earnings surprises for Q1 2024 have seen an average price increase of +1.0% two days before the earnings release through two days after the earnings release. This percentage is equal to the 5-year average price increase of +1.0% during this same window for companies reporting positive earnings surprises.

Companies that have reported negative earnings surprises for Q1 2024 have seen an average price decrease of -2.5% two days before the earnings release through two days after the earnings. This percentage decrease is slightly larger than the 5-year average price decrease of -2.3% during this same window for companies reporting negative earnings surprises.

Percentage of Companies Beating Revenue Estimates (60%) is Below 5-Year Average

In terms of revenues, 60% of companies have reported actual revenues above estimated revenues and 40% have reported actual revenues below estimated revenues. The percentage of companies reporting revenues above estimates is below the 1-year average (67%), below the 5-year average (69%), and below the 10-year average (64%). Historical averages reflect actual results from all 500 companies, not the actual results from the percentage of companies that have reported through this point in time.

At the sector level, the Health Care (88%) sector has the highest percentage of companies reporting revenues above estimates, while the Utilities (17%) sector has the lowest percentage of companies reporting revenues above estimates.

Revenue Surprise Percentage (+1.3%) is Below 5-Year Average

In aggregate, companies are reporting revenues that are 1.3% above expectations. This surprise percentage is below the 1-year average (+1.4%), below the 5-year average (+2.0%), and below the 10-year average (+1.4%). Historical averages reflect actual results from all 500 companies, not the actual results from the percentage of companies that have reported through this point in time.

At the sector level, the Health Care (+2.6%) and Financials (+2.1%) sectors are reporting the largest positive (aggregate) differences between actual revenues and estimated revenues, while the Utilities (-7.7%) and Real Estate (-0.9%) sectors are reporting the largest negative (aggregate) differences between actual revenues and estimated revenues.

Revisions: Increase in Blended Earnings This Week Led By Communication Services Sector

Increase in Blended Earnings This Week Led By Communication Services Sector

The blended (year-over-year) earnings growth rate for the first quarter is 3.5%, which is above the earnings growth rate of 0.6% last week. Positive earnings surprises reported by companies in multiple sectors (led by the Communication Services, Industrials, Health Care, Information Technology, and Consumer Discretionary sectors) were the largest contributors to the increase in the overall growth rate for the index over this period.

In the Communication Services sector, the positive EPS surprises reported by Alphabet (\$1.89 vs. \$1.51) and Meta Platforms (\$4.71 vs. \$4.32) were substantial contributors to the increase in earnings for the index during the past week. As a result, the blended earnings growth rate for the Communication Services sector improved to 34.4% from 20.1% over this period.

In the Industrials sector, the positive EPS surprises reported by Boeing (-\$1.13 vs. -\$1.63) and Caterpillar (\$5.60 vs. \$5.14), and GE Aerospace (\$0.82 vs. \$0.65) were significant contributors to the increase in earnings for the index during the past week. As a result, the blended earnings growth rate for the Industrials sector improved to 4.3% from -0.2% over this period.

In the Health Care sector, the positive EPS surprises reported by Merck (\$2.07 vs. \$1.90) and Gilead Sciences (-\$1.32 vs. -\$1.49) were substantial contributors to the increase in earnings for the index during the past week. As a result, the blended earnings decline for the Health Care sector improved to -28.1% from -30.5% over this period.

In the Information Technology sector, the positive EPS surprise reported by Microsoft (\$2.94 vs. \$2.82) was a significant contributor to the increase in earnings for the index during the past week. As a result, the blended earnings growth rate for the Information Technology sector improved to 22.2% from 20.4% over this period.

In the Consumer Discretionary sector, the positive EPS surprises reported by General Motors (\$2.62 vs. \$2.13) and Ford Motor (\$0.49 vs. \$0.43) were substantial contributors to the increase in earnings for the index during the past week. As a result, the blended earnings growth rate for the Consumer Discretionary sector improved to 18.8% from 15.5% over this period.

Increase in Blended Revenues This Week Led By Health Care Sector

The blended (year-over-year) revenue growth rate for the first quarter is 4.0%, which is above the revenue growth of 3.5% last week. Positive revenue surprises reported by companies in multiple sectors (led by the Health Care and Energy sectors) were the largest contributors to the increase in the overall growth rate for the index over this period.

Communication Services Sector Has Seen Largest Increase in Earnings since March 31

The blended (year-over-year) earnings growth rate for Q1 2024 of 3.5% is slightly above the estimate of 3.4% at the end of the first quarter (March 31). Eight sectors have recorded an increase in their earnings growth rate or a decrease in their earnings decline since the end of the quarter due to upward revisions to earnings estimates and positive earnings surprises, led by the Communication Services (to 34.4% from 19.2%) sector. The Communication Services, Financials, Industrials, and Information Technology sectors have been the largest contributors to the increase in earnings for the index since March 31. On the other hand, three sectors have recorded a decrease in their earnings growth rate or an increase in their earnings decline since the end of the quarter due to downward revisions to EPS estimates or negative earnings surprises, led by the Health Care (to -28.1% from -7.1%) sector. The Health Care sector has also been the largest detractor to the increase in earnings for the index since March 31.

In the Communication Services sector, the positive EPS surprises reported by Alphabet (\$1.89 vs. \$1.51), Meta Platforms (\$4.71 vs. \$4.32), and Netflix (\$5.28 vs. \$4.52) has been substantial contributors to the increase earnings for the index since March 31. As a result, the blended earnings growth rate for the Communication Services sector has improved to 34.4% from 19.2% over this period.

In the Financials sector, the positive EPS surprises reported by Goldman Sachs (\$11.58 vs. \$8.73), JPMorgan Chase (\$4.44 vs. \$4.17), Morgan Stanley (\$2.02 vs. \$1.67), Citigroup (\$1.58 vs. \$1.18), Progressive (\$3.73 vs. \$3.22), and Wells Fargo (\$1.20 vs. \$1.07) have been significant contributors to the increase in earnings for the index since March 31. As a result, the blended earnings growth rate for the Financials sector has improved to 5.4% from 1.7% over this period.

In the Industrials sector, the positive EPS surprises reported by GE Aerospace (\$0.82 vs. \$0.65) and Caterpillar (\$5.60 vs. \$5.14) have been substantial contributors to the increase in earnings for the index since March 31. As a result, the blended earnings growth rate for the Industrials sector has improved to 4.3% from -0.6% over this period.

In the Information Technology sector, the positive EPS surprise reported by Microsoft (\$2.94 vs. \$2.82) has been a significant contributor to the increase in earnings for the index since March 31. As a result, the blended earnings growth rate for the Information Technology sector improved to 22.2% from 20.5% over this period.

In the Health Care sector, downward revisions to EPS estimates for Bristol-Myers Squibb and Gilead Sciences have been the largest detractors to the increase in the earnings growth rate for the index since March 31. During the week of April 8, the majority of analysts covering Bristol-Myers Squibb lowered their non-GAAP EPS estimates to reflect IPR&D charges related to the acquisition of Karuna Therapeutics. As a result, the mean EPS estimate for Bristol-Myers Squibb for Q1 dropped to -\$4.41 from \$1.60 (on April 5). The company reported actual EPS of -\$4.40. During the week of April 15, the majority of analysts covering Gilead Sciences lowered their non-GAAP EPS estimates to reflect the acquisition of CymaBay. As a result, the mean EPS estimate for Gilead Sciences for Q1 dropped to -\$1.49 from \$1.58 (on April 12). The company reported actual EPS of -\$1.32. Mainly due to the decrease in the mean EPS estimates for Bristol-Myers Squibb and Gilead Sciences, the blended earnings decline for the Health Care sector has increased to -28.1% from -7.1% over this period.

Health Care and Financials Sectors Have Seen Largest Increases in Revenues since March 31

The blended (year-over-year) revenue growth rate for Q1 2024 of 4.0% is above the estimate of 3.5% at the end of the first quarter (March 31). Seven sectors have recorded an increase in their revenue growth rate or a decrease in their revenue decline since the end of the quarter due to upward revisions to revenue estimates and positive revenue surprises, led by the Financials (to 4.7% from 3.2%) and Health Care (to 6.6% from 5.6%) sectors. These two sectors have also been the largest contributors to the increase in revenues for the index since the end of the quarter. On the other hand, three sectors have recorded a decrease in their revenue growth rate or an increase in their revenue decline since the end of the quarter due to downward revisions to revenue estimates and negative revenue surprises, led by the Utilities (to -4.8% from -3.3%) sectors. One sector (Consumer Staples) has recorded no change in its revenue growth rate (2.1%) since March 31.

In the Health Care sector, the positive revenue surprises reported by Centene Corporation (\$40.41 billion vs. \$36.43 billion) and Humana (\$29.61 billion vs. \$28.52 billion) have been significant contributors to the increase in revenues for the index since March 31. As a result, the blended revenue growth rate for the Health Care sector has increased to 6.6% from 5.6% over this period.

In the Financials sector, the positive revenue surprises reported by Progressive (\$18.96 billion vs. \$17.0 billion), Goldman Sachs (\$14.21 billion vs. \$12.94 billion), and Synchrony Financial (\$4.80 billion vs. \$3.89 billion) have been substantial contributors to the increase in revenues for the index since March 31. As a result, the blended revenue growth rate for the Financials sector has increased to 4.7% from 3.2% over this period.

Earnings Growth: 3.5%

The blended (combines actual results for companies that have reported and estimated results for companies that have yet to report), year-over-year earnings growth rate for Q1 2024 is 3.5%, which is below the 5-year average earnings growth rate of 9.1% and below the 10-year average earnings growth rate of 8.3%. If 3.5% is the actual growth rate for the quarter, it will mark the third consecutive quarter that the index has reported year-over-year earnings growth.

Eight of the eleven sectors are reporting year-over-year earnings growth, led by the Communication Services, Utilities, Information Technology, and Consumer Discretionary sectors. On the other hand, three sectors are reporting a year-over-year decline in earnings: Health Care, Energy, and Materials sectors.

Communication Services: Alphabet and Meta Platforms Lead Year-Over-Year Growth

The Communication Services sector is reporting the highest (year-over-year) earnings growth rate of all eleven sectors at 34.4%. At the industry level, 4 of the 5 industries in the sector are reporting year-over-year earnings growth. Two of these four industries are reporting double-digit growth: Interactive Media & Services (70%) and Wireless Telecommunication Services (23%). On the other hand, the Diversified Telecommunication Services (-6%) industry is the only industry reporting a year-over-year decline in earnings.

At the company level, Alphabet (\$1.89 vs. \$1.17) and Meta Platforms (\$4.71 vs. \$2.20) are the largest contributors to earnings growth for the sector. If these two companies were excluded, the blended (year-over-year) earnings growth rate for the Communication Services sector would fall to 2.3% from 22.4%.

Utilities: Electric Utilities Industry Is Largest Contributor to Year-Over-Year Growth

The Utilities sector is reporting the second-highest (year-over-year) earnings growth rate of all eleven sectors at 23.9%. At the industry level, 4 of 5 industries in this sector are reporting (or are predicted to report) year-over-year earnings growth. Two of these four industries are reporting (or are projected to report) double-digit growth: Independent Power and Renewable Electricity Producers (65%) and Electric Utilities (45%). The Multi-Utilities industry (-3%) is the only industry reporting a year-over-year decline in earnings.

At the industry level, the Electric Utilities industry is the largest contributor to earnings growth for the sector. If this industry were excluded, the Utilities sector would be reporting a (year-over-year) decline in earnings of -0.4% instead of earnings growth of 23.9%.

Information Technology: NVIDIA Is Largest Contributor to Year-Over-Year Growth

The Information Technology sector is reporting the third-highest (year-over-year) earnings growth rate of all eleven sectors at 22.2%. At the industry level, 4 of the 6 industries in the sector are reporting year-over-year earnings growth. Three of these four industries are reporting double-digit growth: Semiconductors & Semiconductor Equipment (77%), Software (19%), and IT Services (11%). On the other hand, two industries are reporting a year-over-year decline in earnings: Communications Equipment (-12%) and Electronic Equipment, Instruments, & Components (-7%).

At the company level, NVIDIA (\$5.59 vs. \$1.09) is the largest contributor to earnings growth for the sector. If this company were excluded, the blended (year-over-year) earnings growth rate for the Information Technology sector would fall to 9.4% from 22.2%.

Consumer Discretionary: Amazon.com Is Largest Contributor to Year-Over-Year Growth

The Consumer Discretionary sector is reporting the fourth-highest (year-over-year) earnings growth rate of all eleven sectors at 18.8%. At the industry level, 6 of the 9 industries in the sector are reporting (or are predicted to report) year-over-year earnings growth. Five of these six industries are reporting (or are projected to report) double-digit growth: Leisure Products (6,025%), Broadline Retail (146%), Hotels, Restaurants, & Leisure (45%), Household Durables (20%), and Textiles, Apparel, & Luxury Goods (10%). On the other hand, three industries are reporting a year-over-year decline in earnings. Two of these three industries are reporting a double-digit decrease: Automobiles (-23%) and Distributors (-11%).

At the company level, Amazon.com (\$0.84 vs. \$0.31) is the largest contributor to earnings growth for the sector. If this company were excluded, the blended (year-over-year) earnings growth rate for the Consumer Discretionary sector would fall to 1.1% from 18.8%.

Health Care: Bristol-Myers Squibb Is Largest Contributor to Year-Over-Year Decline

The Health Care sector is reporting the largest (year-over-year) earnings decline of all eleven sectors at -28.1%. At the industry level, 3 of the 5 industries in the sector are reporting a year-over-year decline in earnings. Two of these three industries are reporting a double-digit decrease: Pharmaceuticals (-61%) and Biotechnology (-43%). On the other hand, two industries are reporting year-over-year growth in earnings, led by the Health Care Equipment & Supplies (3%) industry.

At the company level, Bristol-Myers Squibb (-\$4.40 vs. \$2.05) is the largest contributor to the earnings decline for the sector. If this company were excluded, the blended (year-over-year) earnings decline for the Health Care sector would improve to -9.8% from -28.1%.

Energy: 2 of 5 Sub-Industries Reporting Year-Over-Year Decline of 25% or More

The Energy sector is reporting the second-largest (year-over-year) earnings decline of all eleven sectors at -25.5%. At the sub-industry level, four of the five sub-industries in the sector are reporting a year-over-year decrease in earnings: Oil & Gas Refining & Marketing (-61%), Integrated Oil & Gas (-27%), Oil & Gas Exploration & Production (-9%), and Oil & Gas Storage & Transportation (-3%). On the other hand, the Oil & Gas Equipment & Services (19%) sub-industry is the only sub-industry in the sector reporting year-over-year earnings growth.

Materials: All 4 Industries Reporting Year-Over-Year Decline of 10% or More

The Materials sector is reporting the third-largest (year-over-year) earnings decline of all eleven sectors at -22.4%. At the industry level, all four industries in this sector are reporting (or are predicted to report) a year-over-year decline in earnings of 10% or more: Chemicals (-25%), Containers & Packaging (-24%), Construction Materials (-18%), and Metals & Mining (-12%).

Revenue Growth: 4.0%

The blended (year-over-year) revenue growth rate for Q1 2024 is 4.0%, which is below the 5-year average revenue growth rate of 6.7% and below the 10-year average revenue growth rate of 5.1%. If 4.0% is the actual revenue growth rate for the quarter, it will mark the 14th consecutive quarter of revenue growth for the index.

At the sector level, eight sectors are reporting year-over-year growth in revenues, led by the Communication Services and Information Technology sectors. On the other hand, three sectors are reporting a year-over-year decline in revenues, led by the Utilities and Materials sectors.

Communication Services: 2 of 5 Industries Reporting Year-Over-Year Growth

The Communication Services sector is reporting the highest (year-over-year) revenue growth rate of all eleven sectors at 8.2%. At the industry level, two of the five industries in this sector are reporting year-over-year growth in revenues. However, the Interactive Media & Services (17%) industry is the only industry that is reporting double-digit growth. On the other hand, the other three industries in the sector are reporting year-over-year declines in revenue of less than 1%.

Information Technology: 3 of 6 Industries Reporting Year-Over-Year Growth

The Information Technology sector is reporting the second-highest (year-over-year) revenue growth rate of all eleven sectors at 7.4%. At the industry level, 3 of the 6 industries in the sector are reporting year-over-year revenue growth. Two of these three industries are reporting double-digit growth: Semiconductors & Semiconductor Equipment (27%) and Software (14%). On the other hand, 3 industries are reporting a year-over-year decline in revenues, led by the Communications Equipment (-10%) and Electronic Equipment, Instruments, & Components (-7%) industries.

Utilities: 3 of 5 Industries Reporting Year-Over-Year Decline

The Utilities sector is reporting the largest (year-over-year) revenue decline of all eleven sectors at -4.8%. At the industry level, 3 of 5 industries in this sector are reporting (or are predicted to report) a year-over-year decline in revenues. However, the Multi-Utilities (-10%) industry is the only industry that is reporting a double-digit decline. On the other hand, 2 industries are projected to report year-over-year growth in revenues: Gas Utilities (6%) and Water Utilities (5%).

Materials: 3 of 4 Industries Reporting Year-Over-Year Decline

The Materials sector is reporting the second-largest (year-over-year) revenue decline of all eleven sectors at -4.6%. At the industry level, three of the four industries in this sector are reporting (or are predicted to report) a year-over-year decline in revenues: Containers & Packaging (-8%), Chemicals (-7%), and Construction Materials (-6%). On the other hand, the Metals & Mining (7%) industry is the only industry reporting year-over-year growth in revenues.

Net Profit Margin: 11.5%

The blended net profit margin for the S&P 500 for Q1 2024 is 11.5%, which is above the previous quarter's net profit margin of 11.2%, equal to the 5-year average of 11.5% and just slightly below the year-ago net profit margin of 11.6%.

At the sector level, six sectors are reporting a year-over-year increase in their net profit margins in Q1 2024 compared to Q1 2023, led by the Information Technology (25.5% vs. 22.4%), Utilities (13.4% vs. 10.3%), and Communication Services (13.5% vs. 10.9%) sectors. On the other hand, five sectors are reporting a year-over-year decrease in their net profit margins in Q1 2024 compared to Q1 2023, led by the Health Care (6.3% vs. 9.3%), Energy (9.6% vs. 12.5%), and Materials (9.1% vs. 11.2%) sectors.

Six sectors are reporting net profit margins in Q1 2024 that are above their 5-year averages, led by the Information Technology (25.5% vs. 23.4%) and Communication Services (13.5% vs. 11.5%) sectors. On the other hand, five sectors are reporting net profit margins in Q1 2024 that are below their 5-year averages, led by the Health Care (6.3% vs. 10.0%) and Materials (9.1% vs. 10.9%) sectors.

Forward Estimates and Valuation

Quarterly Guidance: % of S&P 500 Companies Issuing Negative Guidance for Q2 Below 5-Year Average

At this point in time, 39 companies in the index have issued EPS guidance for Q2 2024. Of these 39 companies, 19 have issued negative EPS guidance and 20 have issued positive EPS guidance. The percentage of companies issuing negative EPS guidance for Q2 2024 is 49% (19 out of 39), which is below the 5-year average of 59% and below the 10-year average of 63%.

At this point in time, 264 companies in the index have issued EPS guidance for the current fiscal year (FY 2024 or FY 2025). Of these 264 companies, 136 have issued negative EPS guidance and 128 have issued positive EPS guidance. The percentage of companies issuing negative EPS guidance is 52% (136 out of 264).

The term “guidance” (or “preannouncement”) is defined as a projection or estimate for EPS provided by a company in advance of the company reporting actual results. Guidance is classified as negative if the estimate (or mid-point of a range estimates) provided by a company is lower than the mean EPS estimate the day before the guidance was issued. Guidance is classified as positive if the estimate (or mid-point of a range of estimates) provided by the company is higher than the mean EPS estimate the day before the guidance was issued.

Earnings: S&P 500 Expected to Report Earnings Growth of 11% for CY 2024
