MAKE BETTER INVESTMENT DECISIONS THROUGH INTERNAL RESEARCH

Combine your firm's proprietary data on equity, credit, FICC, quantitative, and strategy research objects with data from FactSet and third parties to create a central, aggregated repository. Use FactSet's robust calculation and aggregation engine for advanced analytics, extract data directly into Microsoft Excel for additional analysis, or leverage an XML API for seamless integration with your firm's preferred tools. Send data and models seamlessly into FactSet's industry-leading Research Management Solution to manage ideas and investment decisions and complete the research lifecycle.

LEVERAGE A CUSTOMIZABLE RESEARCH WORKFLOW

Gain a flexible, customizable research generation solution designed around multi-environment database schema. Support all members of your international, multi-asset class research team with unique modeling workflows, calculation methodologies, data content sets, and approvals on a regional, sector, or investment methodology level. Maintain oversight of your firm's proprietary data with locally managed administration tools and database schema, or rely on FactSet's Enterprise Hosting installation.
