

Solutions for Benchmark Data

Gain a comprehensive solution that will scale with your needs and optimize your data integration, from performance measurement and client reporting to supporting your compliance and risk workflows.

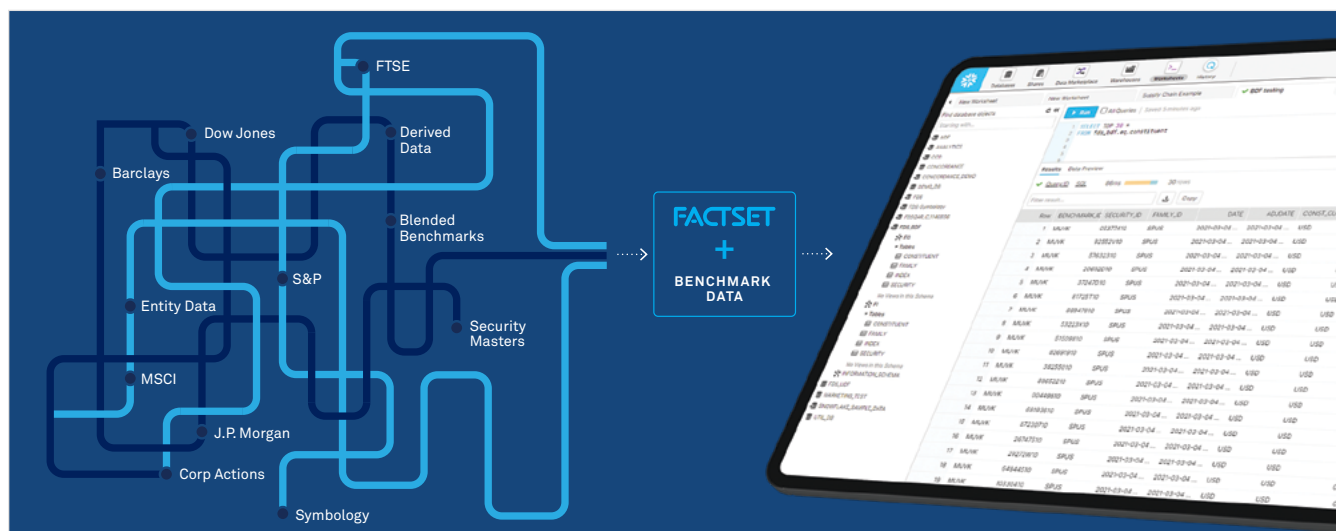

COUNT ON A PARTNER THAT WILL SCALE WITH YOUR EVOLVING NEEDS

Go beyond benchmarks and enrich your database with FactSet's robust content and powerful analytics. Leverage decades of financial data collection and management expertise with extensive access to hundreds of thousands of global benchmarks from over 100 vendors worldwide. Bring your analysis full circle with core datasets like fundamentals and estimates alongside unique content such as derived fixed-income analytics. FactSet delivers the expansion capabilities today's competitive market demands.

ACCESS TIMELY, ACCURATE BENCHMARK DATA ACROSS ALL MAJOR ASSET CLASSES

With decades of experience integrating databases and a host of database engineers and quality assurance staff dedicated to ensuring timeliness and integrity, FactSet provides the highest quality data in the marketplace. Rest assured that information is accurate due to a series of checks and balances that takes place before and after data goes live and reaches your servers. Rely on FactSet's automated revisions process to keep your data clean and benefit from the ability to request and integrate standard, blended, hedged, or custom benchmarks.

SAVE TIME AND RESOURCES WITH A CONSOLIDATED SOLUTION

Rely on FactSet to manage the growing and complex world of index data for your firm. The Benchmark DataFeed allows you to outsource your data management and greatly reduce your operational costs. FactSet's normalized format across vendors, combined with consistent symbology and a centralized contact for support, ensures a cost-effective solution that frees you to focus on the critical aspects of your business.

GAIN TRANSPARENCY AND CONTROL OF YOUR END-TO-END PROCESS

Improve the visibility and management of your day-to-day tasks with dynamic monitoring tools.

- Keep track of your production using our Benchmark DataFeed Health Monitor; a window into your everyday process
- Simplify management information reporting with a dashboard that tracks the performance of your daily workflows across time, plus index and vendor data flows

TAKE ADVANTAGE OF PROACTIVE SUPPORT AND REMEDIATION

As a FactSet client, you have access to unparalleled customer service with a global team that is staffed with subject-matter experts and technical specialists. Our follow-the-sun service model provides round-the-clock support, 365 days a year, to address everything from production issues and content questions to additions or modifications to your feed. To ensure a holistic customer experience, data monitoring and remediation services are deployed to track and resolve vendor delays or issues as soon as they appear.

- Leverage our Issue Tracker portal to file requests and share open tickets with colleagues that can follow along until resolution
- Subscribe to FactSet Notify to get updates on production delays, data integrity issues, revision publications, and announcements about upcoming changes or enhancements to a database

ENHANCE YOUR OFF-PLATFORM WORKFLOWS WITH FLEXIBLE DELIVERY OPTIONS

Choose from flexible delivery options to access FactSet's fully managed and stored benchmark data through feeds, APIs, or various cloud-based infrastructures such as the Snowflake Data Marketplace. Harness the power of our unified hub-and-spoke model to integrate benchmark data with other FactSet DataFeeds. Cutting-edge technology ensures reliability and provides scalability that allows proprietary and third-party applications to seamlessly process global benchmark data.
