ACCESS INSIGHTFUL, REAL-TIME COMPANY NEWS

FactSet StreetAccount delivers comprehensive U.S., Canadian, European, and expanding Asia Pacific coverage, by scanning all possible sources for corporate news. For individual companies, easily find the insight you need to make quick decisions or explain a stock's movement. Leverage our full news archives for deeper analysis.

Our writers include former portfolio managers, traders, analysts, and economists. They use their collective market expertise to report only those stories that are new and material, providing context where applicable, for an intelligent perspective. FactSet StreetAccount provides Earnings Previews and Conference Call Guidance in addition to Street Takeaways, which summarize broker comments following major news events such as earnings, M&A, analyst presentations, and other company events.

Sources of coverage include (but are not limited to):

- Brokerage firm research
- Company press releases
- Corporate conference calls and presentations
- Court rulings
- FDA and EU drug approvals
- FTC antitrust decisions
- Stories released by social media, newspapers, and television
- SEC filings
- Trading floor conjecture
- Twitter
