

# vPITCH EMPOWERED PRESENTATIONS

Power your team's Microsoft PowerPoint presentations with approved, dynamic content from your Vermilion Reporting Suite to ensure consistency, reduce duplicative efforts, and increase productivity.

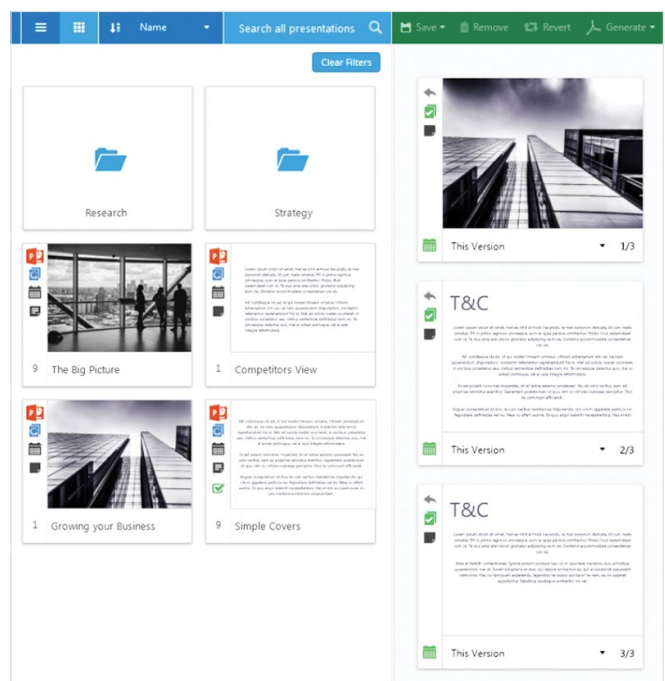

## EMPOWER YOUR SALES FORCE WITH PREAPPROVED PRESENTATION CONTENT

Reduce the time and effort associated with creating and maintaining PowerPoint presentations with a pitchbook solution that combines your firm's proprietary content with dynamic content from the Vermilion Reporting Suite. Enable your team to automatically update their presentations with fully audited data, such as performance figures for a selected period. Grant them access to a centralized repository of all compliant, up-to-date slides that reflect your firm's branding and contain audited and approved information as well as the correct disclosures and disclaimers.

## ACCESS AUTOMATED, CLIENT-READY PRESENTATIONS

Enable your sales team to easily build scheduled or ad hoc presentations by combining audited, approved content from Vermilion Reporting Suite with vPitch's PowerPoint functionality. Standard and custom presentations are available, both leveraging Vermilion's report templates and dynamic, rules-based technology to ensure compliance and consistency across your organization. Vermilion can prepopulate slides and automatically provide relevant content, including critical disclaimer language, to supports sales' efforts.

Combine your firm's proprietary content with dynamic content from the Vermilion Reporting Suite

Control and access vPitch from within PowerPoint

Reduce the burden of creating presentations from your marketing personnel and sales force

## KEY FEATURES

- Automated updates to numbers, text, and graphics within slides
- Integration with the Vermilion workflow
- Combined Vermilion and static PowerPoint content
- Control and access vPitch from within PowerPoint
- Permissioning of slides at deck level
- Secure access to files and folder structure
- Chain-link technology to ensure specific slides are used together based on parent-child relationships that cannot be broken by non-permissioned users
- Search functionality helps users quickly access the slide, notes, or presentations they need

## MEET THE NEEDS OF USERS ACROSS YOUR FIRM

Using vPitch is extremely simple for content creators and content consumers. Content creators, typically marketing personnel, can easily create slides and submit them for compliance to approve before they go live. By creating each slide only once, marketing professionals are freed from the burden of reviewing, editing, and approving disparate sales presentations, enabling them to focus on higher impact work and revenue-driving priorities. Content consumers, generally sales people, are empowered to create pitchbooks with the reassurance that content is accurate, up-to-date, and compliant with brand standards. What's more, vPitch is accessible anywhere in the world using an Internet connection and PowerPoint.

## ABOUT VERMILION

Vermilion Software, a FactSet Company, is a leading global provider of client reporting technology and services for the asset management industry. The Vermilion solution is designed to deliver accurate, flexible, and scalable client reporting and communications, empowering client service professionals with multilingual, graphical, marketing-quality reports created through an automated process. In combination with FactSet, a global provider of integrated financial information, analytical applications, and industry-leading service, Vermilion is committed to further automating the data integration and transparency of financial reporting and communication.
